Read the Side-by-Side vehicle (SSV) and All Terrain Vehicle (ATV) Operator's Guides and watch the Safety DVD before driving. BRP highly recommends that all-terrain vehicle (ATV) drivers take a training course. ATVs can be hazardous to operate. For both ATVs and side-by-side vehicles (SSVs), the operator and passenger should wear a helmet, eye protection and other protective clothing. Respect the minimum age as required by law. For SSVs, fasten lateral net and seat belt at all times and passenger must be at least 12 years old and able to hold handgrips and plant feet while seated against the backrest. Never carry passengers on any ATV not specifically designated for such use. For ATVs, BRP recommends not to carry any passengers under the age of 12. Make sure that all laws, regulations, and BRP's warnings / recommendations for ATV and SSV passengers are respected. Always remember that riding and alcohol/drugs don't mix. Never engage in stunt driving. Avoid excessive speeds and be particularly careful on difficult terrain. Ride responsibly. BRP urges you to "TREAD LIGHTLY" on public and private lands. Preserve your future riding opportunities by showing respect for the environment, local laws and the rights of others when you ride. Always ride responsibly and safely. Never carry passengers on any ATV not specifically designated for such use. Highly skilled operators under controlled conditions appear in this brochure. Do not attempt these manoeuvres if they are beyond your skill level. Pictures taken outward, on private land. BRP reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Some models depicted herein may include optional equipment or not available in your country. Prices are based on Manufacturer Recommended Retail Prices. Please refer to your authorized Can-Am dealer for your own personalized quotation. Depending on location, products are distributed by BRP European Distribution SA, BRP US Inc., BRP Australi

SIZING CHART

HOW TO MESURE

For best results, have someone else take measurements. Measure body in underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

What code represents your size?

1. Find your size.

2. The corresponding code is to complete the part number on your order. Example: 440 227__90 Size: M = code 06 Therefore 440 227

Size =	Code	Size =	Code
One Size	00	28	36
XS	02	30	37
S	04	32	38
M	06	34	39
	09	36	40
XL	12	38	41
2XL	14	40	42
3XL	16	42	43
S/M	72	44	44
L/XL	73		

CHEST/ BUST

Measure under your arms, around the fullest part of your chest.

WAIST

Measure around your natural waistline, keeping palm width. one finger between the tape and body.

GLOVES

Measure

INSEAM

Without shoes, from crotch to the floor.

ARM LENGTH

Hand on hip, from center back neck bone, along shoulder point around elbow to bottom of wrist bone.

HFAD

Around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.

TECHNICAL TERMINOLOGY

WE KEEP YOU DRY

Respiractive Performance Matrix or RPM coating exclusive to BRP Riding Gear. Delivers extremely high performance and durability for perfect climate control under even the most extreme conditions. Trademark waterproofness. windproofness and breathability required of BRP Riding Gear shell fabric developed for intensive use and demanding riders.

Same great RPM coating PLUS total seam and logo sealing. Also, added direct venting in strategic jacket areas for more eff icient moisture management during intense activity.

TEFLON¹

Teflon provides an invisible barrier around fabric fibers to repel water and stains. In addition to retaining its water shedding properties longer than standard Teflon, Teflon HT and HP are also even more resistant to soiling and staining without altering the fabric's color, appearance, structure, texture and breathability. Teflon HT, good up to 20 washes and Teflon HP up to 30 washes compared to manufactured coatings washable only 1 to 5 times.

HIPORA[†]

Windproof, breathable and waterproof membrane that features unique polyurethane coating technology and delivers excellent moisture management.

DWR¹

DWR stands for Durable Water Repellency. This treatment helps prevent the outer fabric surface from absorbing water, keeping the outerwear both light and comfortable.

SEAM SEALING

Seams and embroidery can act as tiny entry points through which wind and water can infiltrate. That's why jackets and pants with RPM are critical seam and logo sealed. And Riding Gear with RPM Max are 100% seam and logo sealed for an even more comprehensive barrier from all the elements. The proprietary tape is also waterproof and breathable to fully seal the deal for complete performance.

WE KEEP YOU WARM

CRESTA

CRESTA BY PRIMALOFT

Primaloft Cresta offers warmth without weight and extra bulk. It is designed to keep you warm and comfortable throughout the day.

PRIMALOFT ONE

Warmer wet or dry than any other synthetic insulation. The ultimate down-like microfiber insulation. Quick drying, soft, and breathable. Primaloft One is lightweight, compressible and thermally efficient.

APACHE 360 TRACKIT

Biggest contact patch, highest ground clearance, lowest steering effort, reduced friction and vibration with heightened rubber overmold wheels.

New innovative tensioner system for track. Ultra light and easy to use. Same for front and rear track.

New track design and rubber for more traction in snow or any other type of ground surface.

TRACK SYSTEMS HAVE ENABLE YOU TO WORK, RIDE AND PLAY DURING WINTER TIME BY REPLACING WHEELS WITH TRACKS. IN 2009, BRP INTRODUCED THE LARGEST TRACK SYSTEM ON THE MARKET FOR MAXIMUM RELIABILITY AND FLOTATION.

THIS YEAR, THE DEVELOPMENT TEAM BROUGHT THE IDEA EVEN FURTHER BY DESIGNING THE BEST YEAR-ROUND KIT ON THE MARKET.

- / The new Apache 360 Track Kit offers the biggest contact patch, highest ground clearance and lowest steering effort.
- / With its heightened rubber over mold wheels, friction and vibration are reduced to a minimum.
- / A new track design provides ultimate traction in any terrain.
- / The conversion from tires to tracks can be made in less than 20 minutes using the Apache 360 Mounting Kit. There is no excuse not to get out and ride.
- / The DPS Module, when installed with the Apache 360 system optimizes your Dynamic Power Steering (DPS) performance, maximizing steering agility at lower speeds while providing

firmer steering at cruising speeds.
In addition, it provides a speed
correction factor for the speedometer
so that your speedometer indicates
the proper speed when running with
your tracks installed.

APACHE 360 TRACK KIT

Best year-round kit on the market, even better than the leading Apache WT. Biggest contact patch, highest ground clearance and lowest steering effort. Quick conversion from tires to tracks in less than 20 minutes for the fastest switch. Reduced friction and vibration with heightened rubber over mold wheels. New track design and rubber for more traction in snow or any other type of ground surface.

Outlander | 715000938 | 41 500 SEK

(Not illustrated)

Simple system that reduces installation time. Select the right one to equip your vehicle with the Apache 360 Track Kit. Includes DPS Module.

PLOWS / or - Alpine Flex Plow - Alpine Super Duty Straight or One Way State Plow

Plow accessories, see page 48.

ALPINE FLEX PLOW 60"

New innovative market trend leader. New plow blade made of flexible UHMW, the highest impact strength of any thermoplastic presently made. Enormous flex action protects the driver, unit and object accidentally impacted. Impact absorption properties return plow to its original shape. Rearward release action practically eliminates jolts from being transferred to the driver or unit. Attaches and detaches effortlessly thanks to the fastest and easiest push frame mounting system on the market. Groundbreaking reinvented blade turning mechanism mounted as high as possible to eliminate having to bend down to change or adjust blade's angle. High pivot point keeps plow on pavement. Compatible with all Alpine Flex Plow accessories to further enhance plow versatility.

Outlander 2006-2012 and Renegade 2007-2009 and 2012 | 715001181 | 3 490 SEK

ALPINE SUPER DUTY STRAIGHT PLOW

Super duty plow blades made from 12-gauge steel. Replaceable wear blades. When angled, 1.5 m blade clears 1.36 m path, 1.37 m blade clears 1.23 m path. Blades swivel left or right, 5 positions. Large pin designed for easy blade rotation to eliminate dirt and snow buildup at pivot point. Blade design provides best snow/dirt roll-off at any angle. Yellow-colored version Can-Am branded.

WINTER PRO V2

WINTER PRO / WINTER PRO V2

With the Winter Pro snowblower you can make all the houses winter chores fast and easy. Winter Pro is designed and built for the Scandinavian conditions and it has several innovative features, which will make your life easier.

Easy Connect Pro- connecting system makes it easy to attach your ATV on the snowblower. All you need is a traiker hitch on your ATV. Electric start and a joystick to steer the chute, dual stage auger and working light (Sold as an accessory) makes it to a professional level tool for the winter time.

Scraper bar height is easily adjustable with the help of the skid shoes. Scraper bar is attached to a boxed steel construction, which makes the snowblower very rigid.

You will have two engine choices: 1-cylinder 14hp and a V2 high power version, with 23hp. Both engines are designed by the American Kohler. Engines are produced and tested to withstand the rough conditions of the Nordic countries.
